1956 Revision Schedule for USCR [REDACTED] -- Part II

REF : St/I Office Notice No. 39, 9 April 1956

1. This Branch is not in a position at this time to provide detailed locations of telecommunications facilities in the towns and along the rail journeys as indicated in the subject revision of USCR [REDACTED]

25X1A2g

2. General information on these areas have been submitted previously in other USCR requirements.

3. Information relative to Post and Telecommunications facilities observed along all routes of travel and in and about towns and cities is a continuing requirement of this Branch. They should always be a part of such folders. The information should be in detail as much as possible, be as continuous along the routes as permissible, and include changes and comments where possible.
